CAREER OBJECTIVE

Detail-oriented Computer Science student with a strong foundation in data analysis, statistical modeling, and data visualization. Passionate about transforming raw data into actionable insights using Python, SQL, and Machine Learning. Seeking a Data Analyst role to apply analytical skills, business intelligence tools, and problem-solving ability to drive data-driven decision-making.

EDUCATION

B.Tech in CSE (Data Science) – Presidency University, Bangalore <i>Current CGPA: 8.19</i>	Aug 2023 – May 2027
Senior Secondary (XII) – Narayana PU College, Nellore, AP <i>GPA: 9.6</i>	2021 – 2023
Secondary (X) – Narayana School, Nellore, AP <i>GPA: 9.6</i>	2021

SKILLS

Programming & Analysis: Python (Pandas, NumPy, Matplotlib, Seaborn, Scikit-learn), SQL, MySQL, R (basics)
Data Visualization: Power BI, Tableau, Matplotlib, Seaborn, Plotly
Machine Learning & Statistics: Regression, Classification, Clustering, Feature Engineering, EDA, Hypothesis Testing
Tools & Platforms: Jupyter Notebook, Google Colab, Git, GitHub, VS Code, Excel
Soft Skills: Analytical Thinking, Problem Solving, Data Storytelling, Attention to Detail, Communication

WORK EXPERIENCE

AI/ML Intern – MS Intern Solution	2024
- Built a semantic segmentation pipeline to classify road scene images (lanes, vehicles, pedestrians) using CNNs. - Performed data preprocessing, augmentation, and model evaluation using IoU metric. - Technologies: Python, TensorFlow/Keras, OpenCV, NumPy, Matplotlib.	
★ Achievement: Participated in the Final Level of Smart India Hackathon 2026, held at Belagavi, Karnataka.	

PROJECTS

Urban Resolve – Civic Issue Reporting App	SIH 2026 All India Level
- Mobile app for citizens to report garbage issues with photo and location; municipal authorities get real-time alerts with auto worker assignment. - Technologies: React Native, Node.js, Firebase, Google Maps API.	
Semantic Segmentation of Road Scenes	MS Intern Solution
- Trained an image segmentation model to label road objects; evaluated using IoU score. - Technologies: Python, TensorFlow, OpenCV, NumPy.	
Gold Price Prediction	Mini Project
- ML model to predict gold prices using historical data with EDA and feature engineering. - Technologies: Python, Pandas, Scikit-learn, Matplotlib.	

CERTIFICATIONS

- AI/ML Internship Certificate – MS Intern Solution
- Data Science Methodology – IBM
- SIH 2026 Participation Certificate – Smart India Hackathon (All India Level)
